*McKinney Air Center at McKinney National Airport, KTKI, has attracted a number of corporate flight departments to their North Texas location with exceptional customer service and a full range of services and amenities.*

FitPlan's registered users cast a record number of votes in this year's survey. Winners were chosen in eight categories ranging from favorite ATC Tower to favorite U.S. FBO. Once again, the results include Star Award winners, who are determined based on the number of votes received, the amount of competition on their field and airport arrival data. The Ace awards recognize those FBOs who received the most votes

at airports with fewer than 4,000 arrivals per year.

Congratulations to this year's winners and thank you to everyone who voted in the survey.
